

Workshop 11 (W11): 7 December 2021

Session 1 (S1): 1400 UTC

Session 2 (S2): 2200 UTC

Wksh	Time	ID	Src	Comment	Online Discussion	Disposition
W11S	8:23:11		P1	[Slide 12] I do not see the need for user to know which regulator issued the rule. Police need to know this in case of enforcement etc.	P2->P1: If an officer cites me with a violation, shouldn't I know who issued the regulation that I'm accused of violating?	Based on workshop discussions, we concluded that the specific regulator that issued the rule needs to be available from the system upon request, but does not need to be communicated as a part of the definition of every rule if this adds too much overhead.
