

Workshop 10 (W10): 30 November 2021

Session 1 (S1): 1400 UTC

Session 2 (S2): 2200 UTC

Wksh	Time	ID	Src	Comment	Online Discussion	Disposition
W10S1	8:30:42	223	P1	[Slide 8] Slug Line" common in WDC suburb and in WDC corners."		Thank you
W10S1	8:34:37	224	P1	Autumn leaves collection where leaves are on the roadway that may limit parking and may intrude into bikeways.		Interesting, this might relate to a "warning" type of rule that applies during certain times of the year that there imply that there may be obstacles to be aware of
W10S1	8:36:28	225	P2	[Slide 9] Some of us want a Roomba for leaves I suspect...		It would be nice. But given that the current generation of automated lawn mowers are US \$1,000+, it might be more than most users are willing to pay!
W10S1	8:38:59	226	P1	Special reserved spaces for store employee of the month award space, veterans, pregnant customer parking, and others.		Agreed, parking restrictions might be instituted for a variety of reasons.
